THE CONFERENCE CHAIRS

Dr. Marc Sinclair is a consultant pediatric orthopaedic and spine surgeon educated in Germany and Switzerland with a clinical fellowship in pediatric orthopaedic surgery from Harvard Medical School, USA. Since 2006, he has worked in Dubai, focusing on limb deformities, hip surgery, scoliosis, and many other pediatric deformities. He has founded and led departments since 2011 in many leading hospitals and is a visiting surgeon across the region. He is a frequent speaker at many national and international conferences. He is a founding member of the Middle East Paediatric Orthopaedic Society (MEPOS) and held the position of first general secretary for four consecutive years.

Conference co-chair
Pediatric orthopedic surgery

Stephanie Berkhout is a highly qualified pediatric physical therapist with a master's degree from Avans+ Breda, Netherlands, and a pediatric neurology module from University College London. She is a registered member of the Royal Dutch Society for Physical Therapy for pediatric physical therapists. Stephanie has extensive experience in various rehabilitation facilities, specializing in children with neurologic, orthopaedic, metabolic, autism, and developmental delays. She has conducted research, developed assessment methods, and gained expertise in conductive-based therapy, gait analysis, sensory integration, and advising on orthotic devices.

ABOUT THE CONFERENCE

Join us for an immersive and 360-degree educational experience aimed at enhancing our understanding and treatment of cerebral palsy. This comprehensive conference will bring together leading experts and practitioners from various medical disciplines, including pediatric orthopaedic surgeons, pediatric neurologic experts, pediatric physiotherapists and occupational therapists, seating specialists, orthotists, and many more. Our goal is to foster collaboration, exchange knowledge, and explore innovative approaches to improve the lives of individuals living with cerebral palsy. Through insightful presentations, interactive workshops, and networking opportunities, attendees will gain invaluable insights, practical skills, and the latest advancements in cerebral palsy management.

WHO SHOULD ATTEND

Pediatric orthopaedic surgeons, Pediatric neurology experts, Physical medicine and rehabilitation experts, Pediatricians, Pediatric physiotherapists, Occupational therapists, Orthotists, Seating specialists and anyone dedicated to enhancing the lives of those with cerebral palsy

KEY TOPICS INCLUDE

- Latest advances in cerebral palsy treatment
- Evidence-based interdisciplinary approaches to care
- Practical insights for rehabilitation and therapy

REGISTRATION FEES

Attendance is free, but pre-registration is required. Seats are limited and available only to the target audience.
